

Complimentary Injury Screen

Is pain affecting you or a loved one's quality of life?

We're Here To Help

Our hands on approach can get to the root of your problem and help you feel better faster. Preventative Physical Therapy may help you reduce your medical costs and help you stay healthy so you can live a fuller, pain free life now and for years to come. Come in and see if we can help you get moving toward a better life today.

Present this Certificate or call our office for a FREE injury screening. Let us assist you in determining the cause of your pain and direct you with the appropriate plan of recovery.

Screenings Include

- Free Individual Consultation with a Licensed Physical Therapist.
- Recommendation of appropriate medical follow-up.

Our team of experts can help you:

Reduce pain, restore function, and prevent injury so you can work, play, and enjoy life to the fullest.

Terms and Conditions

This coupon is for a complimentary physical therapy screening only. The goal of the screening is to determine whether a person would benefit from a physical therapy evaluation or referral to another health care professional. A screening is not a physical therapy treatment or intervention and does not require or involve performance of an initial evaluation, preparation of a plan of care, or creation of a patient treatment record.

This coupon has no cash value and is not for use in conjunction with any insurance program, and is not a substitute for any portion of patient financial responsibility (co-pay, co-insurance or deductible) under any insurance plan of benefits.
