

Central Oregon – Bend, Redmond, Sisters

POSITION INFORMATION

Per Diem/Fill-In Physical Therapist

Therapeutic Associates is seeking a Physical Therapist interested in providing per diem services at our Central Oregon clinics in the Bend-Redmond-Sisters area. Seeking a clinician with experience in, and a passion for, orthopaedics and, ideally, manual therapy. Will consider on-call employee candidates or independent contractors.

Contact Lori Dillon, Recruitment Director, for more information: ldillon@taiweb.com, 800-249-9020 ext.2221, 206-241-0028 (fax)

OUR CENTRAL OREGON CLINICS

For almost 30 years we have had a presence in Central Oregon. Under the stewardship of Don Wick, the founding partner in the region, and with his ability to pioneer relationships with our area physicians, the number of Therapeutic Associates clinics gradually expanded from one to four. We pride ourselves on providing one-on-one care to all of our patients, in friendly, supportive, and community-oriented environments. All of our clinics are independently and locally operated, serving a broad range of diagnoses and demographics with specialty programs in sports medicine, manual therapy, ergonomics, and more. In general, our clinics are progressive with a focus on high evaluation skills and evidence-based practice.

We maintain a community presence through sponsorship of events (such as the Pole, Pedal, Paddle and the Sisters Folk Festival) and public educational opportunities (such as the physician-directed talks at The Athletic Club of Bend). It is part of our culture at Therapeutic Associates Physical Therapy to give back to our community. Many of our staff volunteer their time in service clubs and in the school system. We have given in-kind or monetary support to the Bend-LaPine School District, Boys and Girls Clubs, MBSEF, The Center Foundation, Special Olympics, and the Arthritis Foundation. Through our involvement with Mt. Bachelor Rotary Club we have supported Kid Center, Sparrow Clubs, Grandma's House, Pakistan relief, Tree of Joy, and many other worthy causes. Our clinics also sponsor some of our top young athletes in the region, including the national class skiers on [XC Oregon](#) and the rising regional force that is the [TAI Cycling Team](#).

CENTRAL OREGON AREA

Central Oregon is a booming region in the state, consistently ranked as one of the most desirable places to live in the country. Natural beauty surrounds us, with high desert vegetation to the east, forest to the west, and incredible mountains and waterways everywhere. We enjoy safe neighborhoods, good schools, and a vibrant cultural scene, and we take pride in our strong community fabric. Our area has definite seasons, but we enjoy an overall mild climate. The area receives an average 300 days of sunshine a year and only 12 inches of moisture, mostly snow in the winter. Outdoor recreational opportunities are abundant and provide a primary reason why people are attracted to our region. You can enjoy everything from mountain biking, hiking, rafting, golfing, fishing, rock climbing, camping, downhill and cross country skiing, snowmobiling, and much more.
